2024

RABOBANK

Together with 180 Amsterdam we shot the campaign images for Rabobank Beheerd Beleggen. The campaign focussed on the Gen-Z audience. Instead of spending too often money on coffee-to-go Rabobank can invest that money for you to make more possible for later

SCHOONENBERG

I teamed up together with Indie Amsterdam to shoot the Schoonenberg campaign. With this campaign Schoonenberg wants to focus on a younger target group and show that hearing loss is something that affects all ages

ROTTERDAM

BOLUDA

Together with HotelRebel we eagerly joined the crew of Boluda aboard a tugboat. From navigating through busy waterways to assisting in towing large vessels, we witnessed the teamwork and precision required in this unique industry. The powerful engines, sturdy lines, and skilled crew members painted a vivid picture of the vital role tugboats play in maritime activities.

DE HAAS

Once again I teamed up with HotelRebel for a visit to the shipyard of De Haas in Rotterdam. It is at this place where to maintain en repair all different kind of ships with a dedicated crew.

MADAGASCAR

In the heart of the Indian Ocean, Madagascar beckoned with its exotic landscapes and unique biodiversity. I embarked on a journey to this enchanting island, armed with my camera gear and an adventurous spirit.

Little did I know that this trip would become frustrating journey when I broke my foot at an early stage of this trip. Taking photographs the way I normally do was not possible with my foot in a cast and walking with crutches. However I still managed to take a few snaps of the vibrant markets, bustling villages, and serene beaches.

ROTTERDAM

I have been visiting the city of Rotterdam for years, for assignments but also for personal work, this city is an endless source of inspiration for me as a photographer.
